Biotherapy 8: 253–255, 1994.

Contents to Volume 8

Volume 8 No. 1

Inhibition of tumor cell growth by a human B-cell line 1–6
M. Katano, E. Kubota, F. Nagumo, T. Matsuo, T. Hisatsugu & J. Tadano

***In vivo* effects of recombinant human lymphotoxin on human medulloblastoma xenograft: Enhancement of antitumor activity of etoposide** 7–17
T. Mikami, T. Uozumi, K. Kurisu, K. Kawamoto, K. Kiya & T. Hotta

Inhibition of interferon-γ and interleukin-2 production from lymphocytes stimulated with food antigens by an anti-allergic drug, Tranilast, in patients with food-sensitive atopic dermatitis 19–22
N. Kondo, O. Fukutomi, M. Shinbara & T. Orii

Use of recombinant interferon-α in Human Immunodeficiency Virus (HIV)-infected individuals 23–31
J. Rivero, M. Limonta, A. Aguilera, M. Frage & P. López Saura

Proliferative responses towards native, heat-denatured and pepsin-treated ovalbumin by peripheral blood mononuclear cells from patients with hen's egg-sensitive atopic dermatitis 33–40
T. Nishida, N. Kondo, H. Agata, O. Fukutomi, S. Shinoda, Y. Suzuki, N. Shimozawa, S. Tomatsu & T. Orii

Use of human leukocyte antigen-mismatched allogeneic lymphokine-activated killer cells and interleukin-2 in the adoptive immunotherapy of patients with malignancies 41–50
Y. Kimoto, T. Tanaka, Y. Tanji, A. Fujiwara & T. Taguchi

Antitumor effects of human recombinant macrophage colony-stimulating factor against rat brain tumors 51–62
T. Matsuoka, T. Uozumi, K. Kurisu, H. Maeda, K. Kawamoto & S. Monden

Transfer factor prevents relapses in herpes keratitis patients: A pilot study 63–68
G. Pizza, R. Meduri, C. De Vinci, L. Scorolli & D. Viza

Semi-synthesis of polymyxin-β conjugated ovalbumin: Evaluation of lipopolysaccharide binding avidity and neutralization of induced tnf-α synthesis 69–83
C.P. Coyne, J.T. Moritz & V.C. Langston

Erratum 85

Volume 8 No. 2

Neo-adjuvant chemotherapy ± immunotherapy with S.C. IL 2 in advanced squamous cell carcinoma of the head and neck: A pilot study 91–98
G. Mantovani, A. Bianchi, L. Curreli, M. Ghiani, M.C. Santona, E. Proto & P. Puxeddu

Cytokines in rheumatic diseases 99–111
L.C. Miller

Clinical significance of autologous tumor killing (ATK) activity and its induction therapy in human cancer 113–122
A. Uchida

The emerging role of MIF in septic shock and infection 123–127
J. Bernhagen, T. Calandra & R. Bucala

Biotherapeutic role of fermented milk 129–134
S.N. Gonzalez, R. Cardozo, M.C. Apella & G. Oliver

Dysfunctional monocytes from a patient with disseminated *Mycobacterium kansasii* infection are activated *in vitro* and *in vivo* by GM-CSF 135–142
L.E. Bermudez, C.A. Kemper & S.C. Deresinski

Th1 type $CD4^+$ T cells may be a potent effector against poorly immunogenic syngeneic tumors 143–151
H. Terao, M. Harada, S. Kurosawa, Y. Shinomiya, T. Okamoto, O. Ito, H. Sumichika, M. Takenoyama & K. Nomoto

Volume 8 Nos. 3–4

Special issue: **Cytokine Yearbook – Volume 1**
An Official Publication of the International Society for Interferon and Cytokine Research

Guest editors: S. Pestka, H. Schellekens & P. von Wussow

Preface ix

In memoriam Prof. Giovanni Rossi 153–155
F. Belardelli

Type I interferon genes and proteins 157–162
M.O. Díaz & D. Testa

Interferon receptors 163–174
J. Langer, G. Garotta & S. Pestka

Interferon signal transduction 175–181
A. Larner & N.C. Reich

Induction of interferons and interferon-induced genes 183–187
C.E. Samuel & K. Ozato

Biological effects of the interferons and other cytokines 189–198
R.M. Friedman, P. Grimley & S. Baron

Factors inhibiting IFN activity 199–204
H. Schellekens, P.H. van der Meide & P. von Wussow

Oral application of cytokines 205–212
J.A. Georgiades & W.R. Fleischmann, Jr.

Interferons and the tumor cell 213–218
H. Strander & S. Einhorn

Cytokines and bacterial infections 219–228
M. Degré

Cytokines in animal models of cancer 229–241
F. Burke & F.R. Balkwill

Cytokines and the immune response 243–249
P.H. Van der Meide & H. Schellekens

List of contributors 251

Volume contents 253–255
